

It would be dishonest and untrue to say that the "Baby Bells" do not dominate the market - SBC certainly does in this community. The current telecomm regulations are working - bringing me as a consumer a good selection of products at reasonable prices. Please do not change the balance to favor a few of the larger companies. In our smaller community, we need to have access to more than just a single provider. the current rules work and I hope you will continue to give them the chance to help consumers.
